National Harbor, Maryland - May 22, 2026 - Constl, a subsidiary of Space World Group, and IG Group have entered a strategic partnership focused on strengthening industry engagement, accelerating collaborative growth, and unlocking new opportunities across the global digital infrastructure ecosystem.

The collaboration brings together IG Group's extensive industry relationships and strategic advisory capabilities with Constl's rapidly growing presence in next-generation connectivity and AI-ready digital infrastructure. Through its advisory services, IG Group helps organizations strengthen market positioning, expand industry relationships, and accelerate strategic growth across the global industry. As India enters a new era of AI-powered digital transformation, Constl is engineering purpose-built digital infrastructure designed to support the country's future compute, connectivity, and hyperscale requirements.

With this partnership, both organizations aim to expand strategic industry networks and engagement opportunities across the evolving global digital infrastructure landscape, including hyperscalers, data center providers, Internet Exchanges, neo-cloud platforms, and connectivity leaders.

"We are excited to partner with IG Group as we continue to strengthen Constl's presence across the global digital infrastructure ecosystem. IG Group's strong industry relationships and strategic market expertise make this a valuable partnership as we advance infrastructure designed for India's AI era and long-term digital growth," says Ankit Goel, Chairman and Founder, Space World Group and Founder, Constl.

"Constl is building meaningful momentum within the digital infrastructure ecosystem, and we're excited to support their growth journey through strategic introductions, market positioning, and ecosystem engagement," says Vinay Nagpal, CEO, IG Group. "Our goal is to help foster impactful relationships and create opportunities that accelerate business outcomes globally."

The partnership reflects a shared commitment to contribute to the evolution of global digital infrastructure through stronger industry alignment, broader market engagement, and innovation-driven connectivity initiatives.

About Constl

Constl specializes in delivering advanced Digital Infrastructure Solutions purpose-built for hyperscalers, neo-scalers, telcos, and OTT/CDN's. With a state-of-the-art, pan-India high-speed network at the core, we offer a

truly integrated digital experience. Guided by a deep understanding of our customers' evolving needs and the demands of the future, we are committed to building innovative, reliable, and scalable solutions that enable seamless experiences.
