

Digital infrastructure industry's top minds unite for the inaugural AI Thought Leadership Summit

InterGlobix and Compu Dynamics lead the charge in uniting the AI ecosystem

HERNDON, Va. and CHANTILLY, Va., February 29, 2024. InterGlobix and Compu Dynamics announced a collaboration that unites a distinguished consortium of industry leaders for the inaugural **AI Thought Leadership Summit 2024**. Set against the backdrop of technological transformation and technological innovation, the summit is poised to redefine the digital landscape and demystify the intricate realm of artificial intelligence (AI) infrastructure. The event is scheduled for February 29, 2024 at the prestigious Hyatt Regency Dulles in Herndon, Virginia.

As champions of innovation in the Internet infrastructure ecosystem, InterGlobix and Compu Dynamics are excited to facilitate discussions centered around cutting-edge technologies like AI, machine learning (ML), and big data. Liquid cooling has emerged as a focal point, reflecting its pivotal role in shaping the future of data center operations and efficiency.

Esteemed speakers from industry stalwarts—including **Microsoft, NVIDIA, Oracle, IBM, CoreWeave, Iterate.ai, Aligned Data Centers, Flexential, CoreSite, STACK Infrastructure, CoolIT Systems, nVent, MOX Networks, viaPhoton, and Submer**—will grace the summit. Their insights, gleaned from years of experience and groundbreaking research, promise to ignite conversations and inspire innovation that will redefine the boundaries of technology.

Vinay Nagpal, CEO of InterGlobix, expressed his enthusiasm, stating: “At InterGlobix, we are committed to shaping the future of Internet infrastructure. Partnering with Compu Dynamics for the inaugural Thought Leadership Summit 2024 presents an unparalleled opportunity to collaborate with industry leaders and drive meaningful change in the digital landscape and advance the industry forward.”

Steve Altizer, CEO & President of Compu Dynamics, shared his anticipation, remarking: “Compu Dynamics is proud to host this landmark event, which brings together visionaries and innovators to explore the transformative potential of AI infrastructure. We look forward to fostering engaging discussions and forging new partnerships with the community.”

The summit, scheduled from 12:00 to 7:00 p.m. EST, promises a day filled with thought-provoking presentations, interactive panel discussions, and invaluable networking opportunities. Attendees will gain firsthand insights into emerging trends, best practices, and strategies that will shape the future of the data center industry. *InterGlobix Magazine* is the media partner for the summit.
